

Two sheets of paper, scissors, glue or tape, crayons or colored pencils.

Take one sheet of paper and cut in half horizontally. Set one piece aside. Fold the other in half.

On the folded piece of paper, cut two short slits in the middle of the folded edge. Cut two slightly longer slits on each side.

Unfold the paper. Crease tabs inward to form boxes that stick out. This will be the inside of the card.

Glue or tape your card on the piece
