PREREQUISITES:
PSY F101; or permission of instructor.

COURSE DESCRIPTION:

UAF Catalog: A study of abnormal behavior, its causes, treatment and social impact. The major classifications of disorders are presented. Also available through the Center for Distance Education. Addendum: Course material investigates psychology of human experience when things go wrong. This course will focus on the incidence, etiology, and assessment of dysfunctional behavior patterns with children, adolescents, adults, and families. Students will learn models of assessment to evaluate malfunctioning throughout the life cycle, with emphasis on vulnerable and diverse populations. Major nosological systems such as the Diagnostic and Statistical Manual of Mental Disorders, will be covered.

COURSE READINGS:

Barlow, D.H., & Durand, V.M. (2009). Abnormal Psychology: An Integrative Approach (5th Edition). Belmont, CA: Thomson Wadsworth. <http://www.ichapters.com/market/isbn.html?isbn=0495095567&cid=D2S>

Castillo, R.J. (1997). Culture and Mental Illness: A Client-Centered Approach. Pacific Grove, CA: Brooks/Cole Publishing Company. <http://www.ichapters.com/market/isbn.html?isbn=0534345581&cid=D2S>

Suggested reading American Psychiatric Association (2000). Diagnostic and statistical manual of mental disorders, Fourth Edition Text Revision (DSM-IV-TR). Washington, D.C: APA.

*There is no fully searchable DSM-IV-TR available online. For more information on classification see <http://psywebcwebeb>

approach. Your recommendations must be based on literature research which supports your assessment/intervention plan. The assignment will be five pages
