device to tell time while assessing vital signs).

• Surgical Skills Lab: Since you will be working on cadavers, surgical scrubs and dissection smock (same as used in Gross Anatomy) are required.

	1 Fourse Description
<u>.</u>	
	DVM 611 is the second semester of a four-course series in Foundations of Veterinary Medicine. The full course series will encompass topics in Ethics, Communication, Physical Exam Skills, Surgical Skills, Clinical Reasoning and Professional Development. This course
	will holoury development and and an account for the account of the second of the secon

	case-based discussion), you will be assigned an appropriate make-up activity in order to receive credit for the missed session.
	<ol> <li>Course Calendar: Course Details are being developed and will be posted on Blackboard.</li> </ol>
- 12	
7 Ve	
	Attendance: Students are expected to attend all classes. If you must miss a surgical skills, physical exam or small-animal handling lab due to an excused absence, you will need to attend a scheduled make-up lab during finals week. This will provide an opportunity to practice the skills and complete your task booklet. If you miss another activity (ethics, case-based discussion), you will be assigned an appropriate make-up activity in order to receive assistation.

session.

Classroom Behavior

## Points/Section Distribution:

PE SKIIIS	25%
Case discussion	20%
Client interview assignment	15%
Literature search exercise	15%
Surgicalskills	15%
Ethics	5%
AWA modules	5%

If an assignment is deemed unsatisfactory by the evaluator, you will have one attempt to remediate. Late submissions and remediations will be assessed a 20% penalty. This means that you must still pass the assignment in order to pass the course, but your score will be reduced by 20% for the purposes of calculating your letter grade (for example, if you score 80% on a remediation assignment, you will pass the section. However, your score will be recorded as 64%).

No Make-Up Exams: All exams must be taken at the scheduled time. NO EXCEPTIONS! Exams cannot be taken

	Literature search		after week 1: locate articles, upload to Blackboard. after week 2: clinical question, next steps assignment.
