Proposed Catalog Entries for New Construction Materials

Material Name	Description	Material Type	Material Code	Material Unit	Material Price	Material Quantity	Material Total
1. Concrete	Concrete for foundation and walls	Concrete	101	cubic yard	120.00	100	12000.00
2. Rebar	Rebar for concrete reinforcement	Rebar	102	linear foot	1.50	1000	1500.00
3. Formwork	Formwork for concrete pouring	Formwork	103	square foot	2.00	500	1000.00
4. Brick	Brick for exterior walls	Brick	104	square foot	1.00	100	100.00
5. Mortar	Mortar for brick laying	Mortar	105	square foot	0.50	100	50.00
6. Lumber	Lumber for framing	Lumber	106	linear foot	1.00	1000	1000.00
7. Insulation	Insulation for walls and roof	Insulation	107	square foot	0.50	100	50.00
8. Drywall	Drywall for interior walls	Drywall	108	square foot	0.50	100	50.00
9. Paint	Paint for exterior walls	Paint	109	gallon	1.00	100	100.00
10. Roofing	Roofing for roof structure	Roofing	110	square foot	1.00	100	100.00
11. Siding	Siding for exterior walls	Siding	111	square foot	1.00	100	100.00
12. Windows	Windows for exterior walls	Windows	112	square foot	1.00	100	100.00
13. Doors	Doors for exterior walls	Doors	113	square foot	1.00	100	100.00
14. Flooring	Flooring for interior floors	Flooring	114	square foot	1.00	100	100.00
15. Ceiling	Ceiling for interior ceiling	Ceiling	115	square foot	1.00	100	100.00
16. Electrical	Electrical wiring and outlets	Electrical	116	linear foot	1.00	100	100.00
17. Plumbing	Plumbing fixtures and pipes	Plumbing	117	linear foot	1.00	100	100.00
18. HVAC	HVAC system for interior climate	HVAC	118	unit	1000.00	1	1000.00
19. Landscaping	Landscaping for exterior grounds	Landscaping	119	square foot	1.00	100	100.00
20. Foundation	Foundation for exterior walls	Foundation	120	square foot	1.00	100	100.00

3.2.1 THE ENGINEER'S PROFESSIONAL OBLIGATIONS IN PRACTICE

Many of the fundamental individualistic values, such as individualism and privacy, of the United States are not shared by other cultures.

Individualism

Individualism

Individualism is a cultural value that emphasizes the individual's freedom, autonomy, and self-reliance. It is a key characteristic of Western societies, particularly the United States.

Individualism

The overall structure of the text is organized into sections and subsections, with a clear hierarchy of information.

Individualism

Individualism is a cultural value that emphasizes the individual's freedom, autonomy, and self-reliance. It is a key characteristic of Western societies, particularly the United States.

Individualism

Individualism is a cultural value that emphasizes the individual's freedom, autonomy, and self-reliance. It is a key characteristic of Western societies, particularly the United States.
