It is my pleasure to support the special title development...

Emergency Management (DEM) program already offers an outstanding opportunity

women to apply the skills they gained serving our state and to help them advance careers in both the

characteristics and challenges. In doing so, we support the success of the DEM program as a means of providing

a definite and valuable contribution to our state's emergency management program.

Emergency Management is ideally situated to manage and deliver this program.

It is noted that the Homeless Assistance and Emergency Shelter Act (HESA) is a critical component of the federal response to natural disasters.

The HESA provides for the immediate distribution of funds to states and localities to assist in the care and shelter of homeless individuals and families.

It is requested that you continue to work closely with the Department of Housing and Urban Development (HUD) to ensure that the HESA funds are distributed in a timely and effective manner.

Thank you for your attention to this matter. If you have any questions, please contact the undersigned.
